3rd. October, 2018

The Secretary  
Environment and Planning Review Tribunal  
St. Francis Ravelin  
Floriana

Dear Sir,

**Appeal against Refusal of Development Permit PA/07685/17 –  
Marsaxlokk**

This application includes the sanctioning of an existing rubble boundary wall around a Second World War military gun post. The requested sanctioning has been objected by the Environment and Resources Authority (ERA) and Superintendence of Cultural Heritage (SCH) in view that the rubble wall impinges directly on a historical structure (military gun post).

I would like to point out that no one from ERA or SCH requested to inspect the site prior to their decision for objection. We would like to notify you that we would like the Tribunal to inspect the site during the process of the Appeals application to understand better why the rubble wall was built.

The street "Triq Xrobb l-Ghagin" and the roof of the gunpost are at the same level and before the rubble wall was built, there was no demarcation indicating this. Vehicles used to park directly on the roof of the gunpost and have caused serious damages to the ceiling of this Second World War military gun post. This is the reason why the boundary wall was built; to ensure that the structure is protected and no vehicles park or drive on it.

Encl: Copy of Refusal Decision Notice, site plan, plans, bank receipt.

Yours sincerely,

---

**Analisa Zammit**
