

Environment and Planning Review Tribunal

PA 5108/21

Application of Appellants for the suspension of the permit by appellants

**APPLICATION REQUESTING SUSPENSION OF PERMIT :**

Whereas appellant humbly submits and premise as follows:

That this application for the suspension of the permit is being submitted together with an appeal from the Planning Commission’s decision on the application for development permission application PA 5108/21.

That appellants are all third party registered objectors and interested persons for all intents and purposes at law.

That the appellants feel aggrieved by the decision referred to above, and also because of the fact that the decision of the Planning Commission complained of, has impinged upon the residential amenity of the neighbourhood and their homes and that they are being seriously inconvenienced by the noise and emissions being caused, that the development approved is not in accordance with sanitary regulations and that incorrect information has formed the basis of the Planning Commission’s decision.

That the permit holder will not suffer any disproportionate prejudice if this permit is suspended as the time limits for the hearing of this appeal will be abbreviated and he will benefit from legal certainty in a shorter period of time.

That the appellants cannot avail themselves of any alternative interim remedies whilst appeal proceedings are underway, and so will suffer disproportionate inconvenience during this time.

For these reasons and others which may result during the hearing of the case, the appellants are humbly requesting this Honourable Tribunal to suspend the permit granted and to give such other directions as the Tribunal may deem fit.
