

Request for suspension

The Appellant respectfully submits that in accordance with the provisions of Article 33 of Chapter 551 of the Laws of Malta, the development being proposed and hence approved, should not be executed pending the outcome of this appeal.

It is obvious that if the development is enabled it would seriously compromise the Appellants commercial activity since the Appellate will be authorized to operate in front of my client's premises with the obvious confusion that will be created and irreparable harm to the Appellants commercial concern.
