Environment and Planning Review Tribunal

Block B, St. Francis Ditch,

Floriana

5th April 2017

Dear Sirs,

Re: Application for Suspension of Execution of Works

I write on behalf of the KMPV Limited, Maurice Xuereb, John Gatt and Mark Vassallo, all registered Objectors in the proceedings regarding Permit Application PA/00563/17.

This is an application in the acts of an Appeal Application following a Permit Application PA/00563/17 granted by the Planning Authority. The Appeal and this application are being filed concurrently.

The Objectors note that notwithstanding the fact that in the conditions of the said permit the Contractor commenced/executed works on item (ii) The terrace extension (by laying the iron structures and concrete on the 3rd floor as per photo supplied) on the 17/03/2017, which is within the 30 day appeal period, thus not respecting the PA decision and infringing on our rights of appeal.

The Objectors, in view of the above and in view of the fact that the terrace extension is clearly in violation of the law, request that this Tribunal suspends the execution of the said permit at least until the Tribunal delivers its decision on the matter in accordance with Article 33 of Environment and Planning Review Tribunal Act.

Michael Camilleri
Advocate
